SUMMARY

Software engineer and data analyst with a **First Class BSc in Computing** and an **MSc in Business Analytics**. Built frontend and backend features across **5 production applications** with **React.js**, **Next.js**, **TypeScript**, **Golang** and **MySQL**, shipping through **CI/CD** with **Cypress** testing and **200+ code reviews** in an **Agile** team. As a business analyst, used **Python** and **SQL** on 10K+ customer records and contributed to a **15% increase in conversion rates**. Now building client websites and an LLM-agent data pipeline. Based in Birmingham. **Right to work in the UK**.

SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, React Query, Figma, responsive and cross-browser design
- **Back end & data:** Golang, REST APIs, SQL, MySQL, SQLite, Python/Pandas, Google Analytics, customer segmentation analysis; Node.js, Express, MongoDB and tRPC in personal projects
- **Engineering practice:** Git, GitHub, GitHub Actions (CI/CD), Cypress end-to-end testing, Turborepo monorepo, pull request reviews, Agile Scrum, Jira, AI-assisted development
- **Languages:** English (native or advanced proficiency), Nepali (native proficiency), Hindi (advanced proficiency)

EDUCATION

MSc Business Analytics | Aston University | 2024 – 2025
- **Modules:** Programming with Data Analytics, Machine Learning, Data Mining, Visualisation

BSc (Hons) Computing | London Metropolitan University (via Islington College) | 2019 – 2022: **First Class Honours**
- **Modules:** Web Development, Software Engineering, Data Structures

---

WORK EXPERIENCE

Freelance Web Developer | Birmingham, UK | 2025 – Present
- Built a fast, mobile-first site for **Pimenta**, a Birmingham pizzeria and burger takeaway, in **Next.js**, **React**, **TypeScript** and **TailwindCSS**: sticky tap-to-call bar, live open/closed status from opening hours and a JSON-driven tabbed menu.
- Design and build **responsive websites** for small businesses, working with marketing partner The Social Signal on client delivery **from brief to launch**.

Business Analyst | BUY ME ONCE | London, UK | Apr 2025 – Aug 2025
- Analysed **Google Analytics** and Shopify datasets (**50K+ user sessions**) to identify optimisation opportunities, contributing to a **15% increase in conversion rates**.
- Used **Python and SQL** to analyse **10K+ customer records**, generating insights for customer segmentation and product performance improvements.

Associate Software Engineer | SCALA Inc. | Remote, Kathmandu, Nepal | Dec 2022 – Jun 2024
- Built backend and frontend features across **5 production applications**, including **MySQL** database integration with a **Golang** backend serving a **Next.js** and **TypeScript** frontend.
- Integrated **20+ REST API** endpoints via **8 reusable React Query hooks**, cutting redundant API calls by **40%** through caching and request deduplication.
- Translated **Figma** designs into responsive, cross-browser interfaces with **TailwindCSS**, improving UI delivery efficiency by **25%**.
- Wrote **Cypress** end-to-end tests and worked in a **Turborepo** monorepo with **GitHub Actions CI/CD**, contributing **2,500+ commits** and **200+ pull request reviews** in an **Agile** team.

Café Assistant | Ori Caffè, John Lewis | Solihull, UK | 2025 – Present
- Train new team members on equipment and processes in a fast-paced, customer-facing team; hold a professional barista training certificate.

Voice-over Artist | Innovate Tech | Kathmandu, Nepal | Apr 2021 – Dec 2022
- Recorded **100+ lesson scripts** for the online education platform "My Second Teacher".

PROJECTS

- **Job Market Data Pipeline** (Python, REST APIs, LLM agents): Polls public Greenhouse, Lever and Ashby APIs across 60+ companies (~11,000 postings per run), deduplicates and filters them and enriches employers with UK sponsor-register data; a scheduled LLM agent scores the shortlist and emails a digest. Built with **AI-assisted development**, human in the loop.
- **Praj Travels** (desi-travellers.vercel.app): Demo website for a UK weekend-trips business, taken from design to deployment and version-controlled with **Git**.

EXTRACURRICULAR ACTIVITIES

- **President, Web Development Club, Islington College:** Organised 3 workshops, boosting participation by 50%.
- **Student Representative, Aston University:** Gathered student feedback on lectures and academic content and reported it to academic staff in meetings.
